Appendix A – Treasurer's Report

Lewisham Cyclists Treasurer's Report to 2018 AGM

Our finances remain healthy with our available bank balance of £831 being almost the same as it was this time last year. This is in part as a result of several large donations from the Deptford Folk organisation related to the monthly Deptford Mend and Ride scheme. We also owe a small vote of thanks at least to one individual, who wishes to remain anonymous, who's been contributing £20 a month to us since last June.

Our biggest single purchase was the cargo bike. Its £2,280 cost was met by two personal donations of £1,000 each with the balance coming from our general funds.

Some relatively modest donations have also been received in cash at Mend and Ride sessions. This income stream has mostly been used to pay the Mend and Ride mechanics directly and is not detailed in the accompanying summary. There was a residual £9 in cash at the last count.

The presented figures were compiled last week, a fortnight before the 31st March year end. It is not expected that any substantial changes will occur before then.
